

WHAT IS SCROFULA

It is that impurity in the blood, which, accumulating in the glands of the neck, produces unsightly lumps or swellings; which, if neglected, may run into the arms, legs, or feet; which develops ulcers in the eyes, ears, or nose, often causing blindness or deafness; which is the origin of pimples, cancerous growths, or the many other manifestations usually ascribed to "humors;" which, fastening upon the lungs, causes consumption and death. Being the most ancient, it is the most general of all diseases or affections, for very few persons are entirely free from it.

How Can It Be CURED

By taking Hood's Sarsaparilla, which, by the remarkable cures it has accomplished, often when other medicines have failed, has proven itself to be a potent and peculiar medicine for this disease. Some of these cures are really wonderful. If you suffer from scrofula, be sure to try Hood's Sarsaparilla. "Every spring my wife and children have been troubled with scrofula, sores breaking out on them in various places. My little boy, three years old, has been a terrible sufferer. Last spring he was one mass of sores from head to foot. I was advised to use Hood's Sarsaparilla, and we have all taken it. The result is that all have been cured of the scrofula, my little boy being entirely free from sores, and all four of my children look bright and healthy." W. B. ATHERTON, Passaic City, N. J.

LOCAL BRIEVITIES.

Business houses are in demand.

Mrs. Mary Ryan is sick with flux.

Corn for sale at Chas. Riedel's, Holt, Ky.

Mr. M. Hambleton is building a cottage on Second street, for rent.

Gas stock quiet. More sellers than buyers. Prices range from 2 1/2 to 3 cents.

J. F. Sulzer & Bro., are fitting up a boarding car for the L. H. & W. branch.

Fifteen shares of Cloverport Mineral stock for sale at 5 cents. Apply at this office.

The Devonian Natural Gas Company is ready to let its contract for their first well. It will be let this week.

The liver and kidneys must be kept in good condition. Hood's Sarsaparilla is a great remedy for regulating these organs.

It's an actual fact, somebody is talking about street cars for Cloverport. Well, anything is possible in a natural gas town.

The Pioneer Natural Gas Company, of Owensboro, have contracted for a well and will go down 3,500 feet unless gas is struck sooner.

The Louisville and Henderson Packet Company will sell round trip tickets to the Pullman trial for \$1.50, including meals and berth.

Rev. Hugh Calvin Smith, of Morganfield, preached in the Presbyterian church Sunday night. He filled Rev. Morrison's appointment.

The Cloverport Mineral, Gold Fortune and Tar Creek, all have wells nearly down to the proper depth, and are expected to strike some time this week.

Mr. W. A. Smith of this city and Mr. W. H. Hardin, of near Ludburg, are the only Republicans in this county that have been treated to a slice of Mr. Feland's pie.

The Clover Creek Gas Company has contracted for a well and will locate it outside of town. The directors went out late yesterday evening to decide upon a place.

Rev. I. B. Timberlake preached in Holt's chapel last Sunday morning and here at night. He had a full house and his sermon captivated everybody. Bro. Timberlake is a great favorite with our people.

Cloverport is getting the biggest end of the trade on the Irvington branch, and she is now fitting up cars to run over that line to supply the people with all the goods they want. It's mighty hard to down a live town.

Miss Annie May's name was by oversight omitted from the list of teachers in the High School. Everybody knows that Miss Annie is a fixture in this institution and the omission was not intentional on the part of the board or the principal.

Poor Ireland will likely never know what a blessing Garter's chicken cholera cure has been to America. It is not only a preventative, but it positively cures the sick chickens. If it fails, remember your money will be refunded by all druggists.

The lumber and stove business here is moving pretty lively. There are twenty-five teams hauling lumber, and there are teams hauling staves. And then there are teams hauling live coal, tobacco and lumber for gas derricks, making it one of the busiest towns in the land.

Mr. L. T. Roberts, of Robert's Bottom, was in our city last week. In speaking of his wheat crop, he said it was the finest he had made for years. "I averaged sixty-five bushels to the acre." This is the best yield we have heard of in the county.

Mrs. C. M. Bullitt is very sick.

Mr. Buck Addison is improving.

Mr. R. W. Nixon will open out in the old bank building this week.

There were over one hundred arrivals at the Cloverport Hotel last week.

We have an interesting letter from our old friend "Terrell", which will appear next week.

Mr. J. D. Hambleton has been quite sick for two weeks with fever. He is now improving.

Mr. Geo. Harris has opened up a confectionery and ice cream saloon, in D'Arcy's block, in the room formerly occupied by the Mayor.

Mrs. J. A. Witt, of Hardinsburg, sent to this office last week one of the largest and most perfect white magnolia blossoms we ever saw. She has our thanks for it, also the thanks of Mrs. News, to whom we presented it.

Severe Cases of Blood Poison.

Thousands suffer from blood poison, who would be cured if they gave B. B. B. (Botanic Blood Balm) a trial. Sent to the Blood Balm Co., Atlanta, Ga., for book of wonderful cures, that convince the most skeptical. It is sent free.

J. O. Gibson, Meridian, Miss., writes: "For a number of years I suffered untold agonies from blood poison. Several prominent physicians did me little if any good. I began to use B. B. B. with very little faith, but, to my utter surprise it has made me a well and hearty person."

Z. T. Hallerton, Macon, Ga., writes: "I contracted blood poison. I first tried physicians, and then went to Hot Springs. I returned a rained man physically. Nothing seemed to do me any good. My mother persuaded me to try B. B. B. To my utter astonishment every sore quickly healed."

Benj. Morris, Atlanta, Ga., writes: "I suffered years from syphilitic blood poison which refused to be cured by all treatment. Physicians pronounced it a hopeless case. I had no appetite, I had pains in hips and joints and my kidneys were diseased. My throat was ulcerated and my breast a mass of running sores. In this condition I commenced a use of B. B. B. It healed every ulcer and sore and cured me completely within two months."

Another Gusher.

That's what we have and it is entirely demonstrated to the satisfaction of all that it is the easiest thing imaginable to strike a Natural Gas Gusher in any part of this neck of the woods. We've got it here bad in any size, quantity and quality.

All you've got to do is to put a hole down to the proper depth and it comes with a roar and a gush that can be heard for miles around.

The Mineral Center Company struck the second well last Wednesday night about 2 o'clock at a depth of 890 feet and by boring to a depth of a little over 900 feet they got a well that any company might be proud of. But it was just what everybody was looking for and expected, and it was no surprise to our people. Natural gas is a settled fact for Cloverport. We have it in abundance and to spare, without money or price to manufacturers.

McDANIELS.

Mrs. Mattie Mercer is visiting relatives in Ohio county.

Mr. J. R. Wilson went to Flora, Ill., a few days ago to visit his relatives.

Mr. George Moore, of near Leitchfield, was here last week visiting relatives.

Mrs. Chambliss, of near Falls of Rough, who has been visiting in this neighborhood for the past week, returned to her home on the 5th, accompanied by her daughters, Mrs. Ruth Whittinghill, Mrs. Sue Mercer and Mrs. Annie Parson.

One day last week Mr. Lonnie Mattingly was severely, but not fatally injured on the farm of Mr. Ken Rhodes by a young mule running away with a road cart to which he had harnessed. He was thrown from his seat, one foot caught in some way and he was dragged some distance before he got loose from the cart.

Died, of flux, on the night of July 23rd, Maud, little daughter of Mr. and Mrs. J. W. Daybrook.

She passed away, like a dream or a story, From a bosom of love to a mansion of glory.

Died.—On the morning of the 1st inst. Miss Annie Cannon, after days of suffering with typhoid fever, quietly breathed her last. Her remains were interred in the cemetery at Leitchfield, being followed to their last resting place by a large number of relatives and friends.

"From Love's shining circle
The gems drop away."
Being a consistent christian and amiable in disposition; not only will there be a vacant chair around the family hearthstone but in church, Sunday school and in every social gathering the absence of her kind, sweet face and gentle unassuming manners, that made her so dear to all will cast a gloom over the entire community for days to come. To the bereaved family we extend our heartfelt sympathy.

The Louisville Hardinsburg and Western.

Work on the Louisville, Hardinsburg and Western railroad is progressing rapidly. About 300 hands are on the road between Irvington and Payne's farm, two miles out from this place. The grading between Sinking creek and Irvington is about all finished and track-laying began at the latter place last Wednesday. Mr. Herndon, the division engineer, is confident that the cars will be running to Hardinsburg by October 1st, or down to a point where the main line and the proposed branch that is to come into this town diverge.

Whether we will get a branch or the main line is yet unsettled, but the dispute over this proposition is not interfering with the work at all. The surveyors will go below town and continue their work until a route by Hardinsburg is determined upon.

The largest force of men is at work between Sinking creek and the top of the hill at John Dowell's. The heaviest cuts and fills are between those two points and the work of digging and blasting goes on there day and night. Mr. Corrigan, the boss contractor, has pitched his tent on the road near Jack Fisher's which makes it convenient for him to inspect all work in progress from the top of the hill to the bottom, a distance of one mile. There are four squads of men at work on this hill making the fills and opening the cuts. The deepest cut will be about twenty feet and 200 or 300 yards in length. Mr. Corrigan told our correspondent that it would take about six weeks to make the grade on Sinking hill, but after that he would have the remainder of the work to Hardinsburg would be very light. He is working all the hands he can get and is paying good wages. While the work is just now well under way, the indications for the appearance of the iron horse there in a little while are most hopeful.

The road through this section will bring in a new order of things altogether. So intent are the people interested in its completion that many of them, men, women and children, visit it daily to watch the progress of the work.

Garfield is looking forward to a boom in business when this road is completed. I have heard of two or three parties who have been there prospecting and who have agreed to erect new business houses as soon as the cars get to running. Garfield is convenient to a large section of country east of Custer and Hudsonville and, with a railroad, she will at once step into notice as a good shopping and trading point.

COMING!

Amendment to Articles of Incorporation.

Know all men by these presents, that the undersigned, C. W. Fowler, G. W. Short and Augustus Brown, having heretofore, to-wit, on the 6th day of May, 1889, associated themselves together as a body corporate, under the name of "The Devonian Natural Gas and Mining Company," which said articles of incorporation were duly acknowledged, lodged for record and recorded in the Breckenridge County Clerk's office, on the 6th day of May, 1889, and said corporation desiring to amend said articles of incorporation by altering the name of said company; and the undersigned being the original incorporators and the only stockholders, do hereby so amend and alter said name by striking out the words "and Mining" so that said name shall be and is "The Devonian Natural Gas Company."

Witness our hands this 1st day of July, A. D. 1889.

C. W. Fowler,
G. W. Short,
Augustus Brown.

An Ordinance.

Be it ordained by the Mayor and Council of the City of Cloverport:

Section 1. It shall be unlawful for the Louisville, St. Louis & Texas Railroad Company or any of its agents, servants or employees, to stop any of its cars, engines, tenders or rolling-stock on any of the street crossings in the City of Cloverport West of third street so as to obstruct the free passage of teams, vehicles or persons without damage, or inconvenience, nor shall they obstruct 3rd street with any of their cars, engines or rolling-stock for more than five minutes at any time.

Section 2. It shall not be lawful for the L. St. L. & T. R. Co. or any of its agents, servants or employees, to run any engine, tender, car or rolling-stock in the limits of said City at a rate of speed not exceeding five miles per hour.

Section 3. That it shall not be lawful for any railroad company or any of its agents, servants or employees, to receive into, or discharge from, any of its coaches or cars or flats, or any of its rolling-stock, any freight, merchandise, on any of the streets or highways within the City of Cloverport, provided, however, that the L. St. L. & T. R. Co. may receive and discharge freight at and opposite their present depot, at the East end of Houston Street, but this shall not be construed so as to give said railroad company any permanent right to the use of said street, or any right greater than given in the original contract or ordinance, and said railroad company shall not permit cars, coaches or rolling-stock to remain on the track or tracks on said Houston Street for a longer period than twenty-four hours at any one time, including night.

Section 4. That it shall not be lawful for any person or persons who deliver or receive from coaches, cars, flats or rolling-stock, of any railroad company, any freight, merchandise or other things on any of the streets within said city, except as provided in the third section of this ordinance.

Section 5. That it shall not be lawful for any such railroad company, or any of its agents, servants or employees to allow any of its coaches, cars, flats or other rolling stock to remain in or upon any of the streets of the City of Cloverport, except as provided for in the third section of this ordinance.

Section 6. It shall be the duty of every Railroad Company or person managing any locomotive engine within the city limits to ring, or have ring, the bell of such engine at all times while such is in motion.

Section 7. That for each and every violation of any of the foregoing sections of this ordinance the company or person or persons so offending shall, upon conviction, be fined not less than five nor more than fifty dollars, the fine recoverable before the Mayor's court.

Section 8. This ordinance to take effect fifteen days after the passage and publication.

INCORPORATION NOTICE.

Notice is hereby given that H. A. Oelze, A. L. Oelze, Q. K. Groves, F. M. Smith, W. A. Frank, and E. N. The Right Kind of EDUCATION PAYS!

If you want your child educated send him to a TEACHER; if you send him to school to get rid of him or because it is customary, then send him to a HEARER OF RECITATIONS. There is a vast difference between teachers and recitation hearers. A teacher stimulates his pupils and encourages them to learn for the sake of the power it gives them; the time-serving recitation-hearer encourages his pupils to memorize their lessons in order that they may recite well and get a good mark. Which will you choose for your boy and your girl? If the former, then patronize the

CLOVERPORT HIGH SCHOOL!

Which enters its Second year under the guidance of

MAJOR C. W. FOWLER,

Monday, September 9th, 1889.

One year's work has shown us the defects of the old plan that has been followed in the past, and it has enabled us to prepare a graded course of study, extending from the primary to the high school. Of course this will require more help, and the Board of Trustees has given me an

INCREASED NUMBER OF TEACHERS.

If you want your child to have a first-class GENERAL EDUCATION let him take our REGULAR COMMON and HIGH SCHOOL COURSE, consisting of, in addition to the Common School Branches, which include Physiology and Civil Government, Algebra, Geometry, Trigonometry and Surveying, with Field Practice German, Latin and higher English; Geology, Botany, Physics, Physical Geography and Chemistry. What school presents a better course? And remember we have over \$150 worth of Apparatus and \$300 worth of Engineering Instruments, all of which are used in our regular Course without extra charge.
